

# Join the Past to the Future

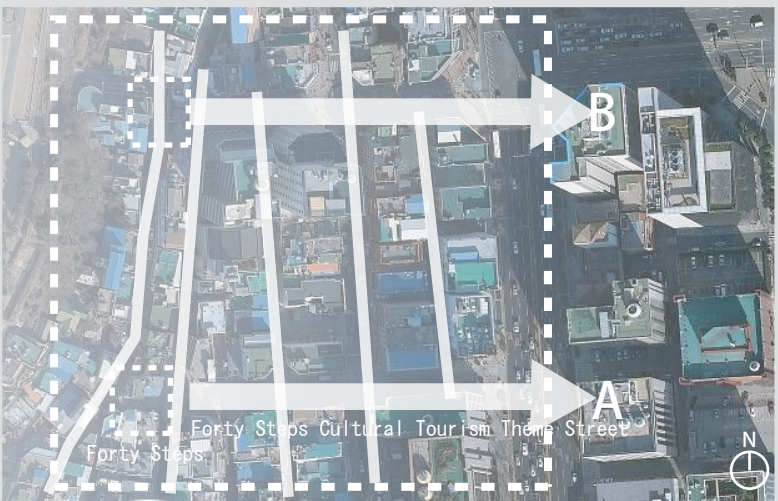

## concept

The memory of this site from the past to present is replaced with one road. The city space in the east is shown as present and the future, and the dwelling area where life in the west is felt is shown the past. This is expressed like one story on the road. In the time led from present to the past axis, of the halt each thinks about now from the life of local people who are reminiscent of a past managing by feeling peace now at the time of alive on 40 steps where memories of the war remain. And, advancement to the shining future that has not been seen yet is sworn at another axis that will expand from the past to the future.

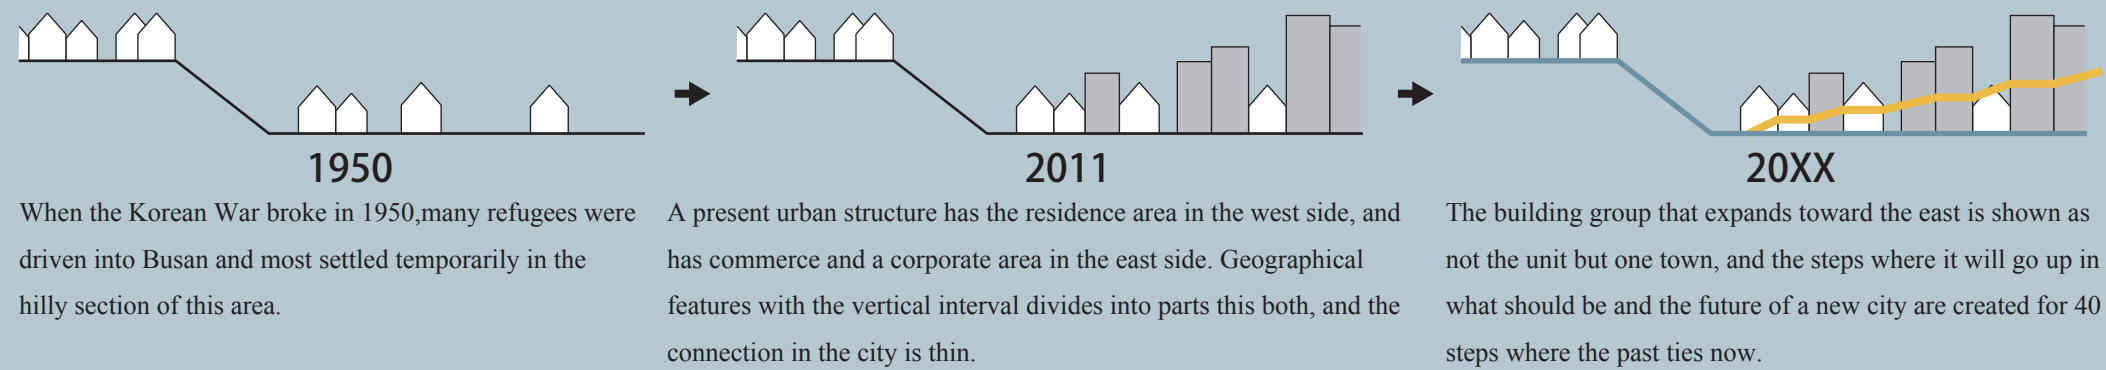

## site

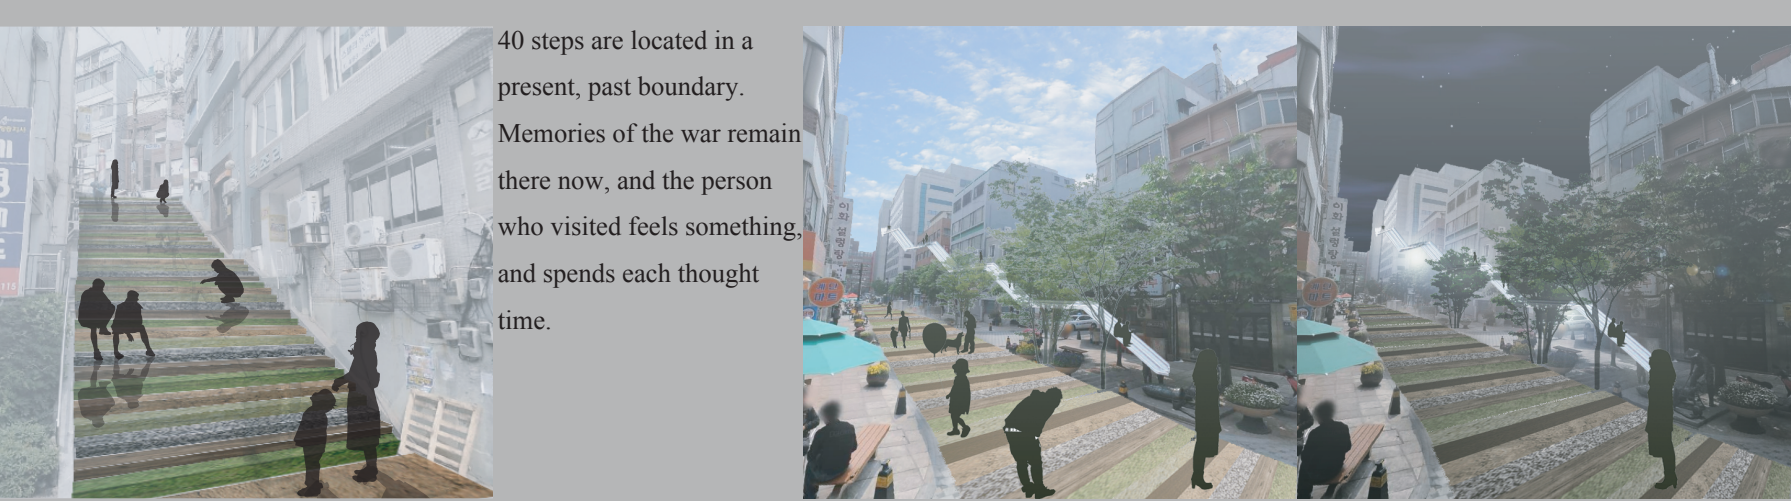

40 steps are located in Pusan in the South Korea southeast. A lot of evacuees are places in Pusan City that is the center of traffic and the administration where the construction overcrowdedness life is done, and the rescue supply that entered from the port located in the presence sold it at the criticism this time of the Korean War in 1950 as for a temporary residence. Moreover, it is a place where joys and sorrows of the relocation were symbolized as a place meets the family who became separate while taking shelter. It assumes according to the cultural sightseeing theme, and a lot of monuments where a scene at that time is shown are put now.

## diagram

## after

40 steps are located in a present, past boundary. Memories of the war remain there now, and the person who visited feels something, and spends each thought time.

People who walk on an advanced road to the past in the west from the east and people who walk on an advanced road that connect the dwelling, the shop and the office from the west in the future in the east exist in the same space while considering each other.
